About ISO

The ISO (International Organization for Standardization) story began in 1946 when delegates from 25 countries met at the Institute of Civil Engineers in London and decided to create a new international organization 'to facilitate the international coordination and unification of industrial standards'. In February 1947 the new organisation, ISO, officially began operations. Since then, ISO have published over 19 500 International Standards covering almost all aspects of technology and manufacturing.ISO is the world's largest developer of voluntary International Standards. International Standards give state of the art specifications for products, services and good practice, helping to make industry more efficient and effective. Developed through global consensus, they help to break down barriers to international trade.ISO develops International Standards. ISO were founded in 1947, and since then have published more than 19 500 International Standards covering almost all aspects of technology and business. From food safety to computers, and agriculture to healthcare, ISO International Standards.ISO is a network of national standards bodies. These national standards bodies make up the ISO membership and they represent ISO in their country.On today ISO have members from 169 countries and 3,368 technical bodies to take care of standard development. ISO office is located at Central Secretariat in Geneva, Switzerland.ISO International Standards ensure that products and services are safe, reliable and of good quality. For business, they are strategic tools that reduce costs by minimizing waste and errors and increasing productivity. They help companies to access new markets, level the playing field for developing countries and facilitate free and fair global trade.ISO 9001; 2008 is one of the most popular standard provided by ISO and was prepared by Technical Committee ISO/TC 176, Quality Management and Quality Assurance, Subcommittee SC 2, Quality Systems.The ISO 9001 standard is related to quality management systems and designed to help organizations ensure that they meet the needs of customers and other stakeholders while meeting statutory and regulatory requirements related to the product/ Service. The standards are published by ISO, the International Organization for Standardization, and available through National standards bodies. ISO 9001 deals with the fundamentals of quality management systems, including the eight management principles on which the ISO 9000 family of standards is based. ISO 9001 deals with the requirements that organizations wishing to meet the standard have to fulfill.

Rev. No. 00, Pune, 1st Oct 2013

Managing Director

Impartiality and Independency

AITF-MCL is committed to maintain impartiality while providing management system certification services. AITF-MCL understands the importance of impartiality in carrying out its management system certification activities, in order to insure ensures the objectivity of its management system certification activities AITF- MCL is committed and protect the interests of the other parties while providing our services in an independent and impartial manner with strictly adhering to the code of ethics.

AITF personnel are free from any commercial, financial or other pressures which might affect their judgement. Their remuneration are not directly depend on the number of inspections/audits carried out and on the relevant results; **AITF** personnel responsible of the execution of any activity relevant to certification must behave in compliance with the **AITF** Codes of Ethics and Behaviour. This, among others, foresees that the personnel is not allowed to be involved in the design, consultancy, manufacture, supply, installation, purchase, ownership, use or maintenance of the items inspected, nor shall it acts as the authorised representative of any of the parties involved in the above–mentioned activities. In event of hiring a technical expert in the audit team, it is ensured that he/she does not have any relations with the customer (organisation in process of certification) for the past 3 years as a minimum. An undertaking is also signed by our staff working in the office with regard to the confidentiality of information and practising code of ethical conduct. In general this particular aspect is ensured for all those who work for or on behalf of AITF.

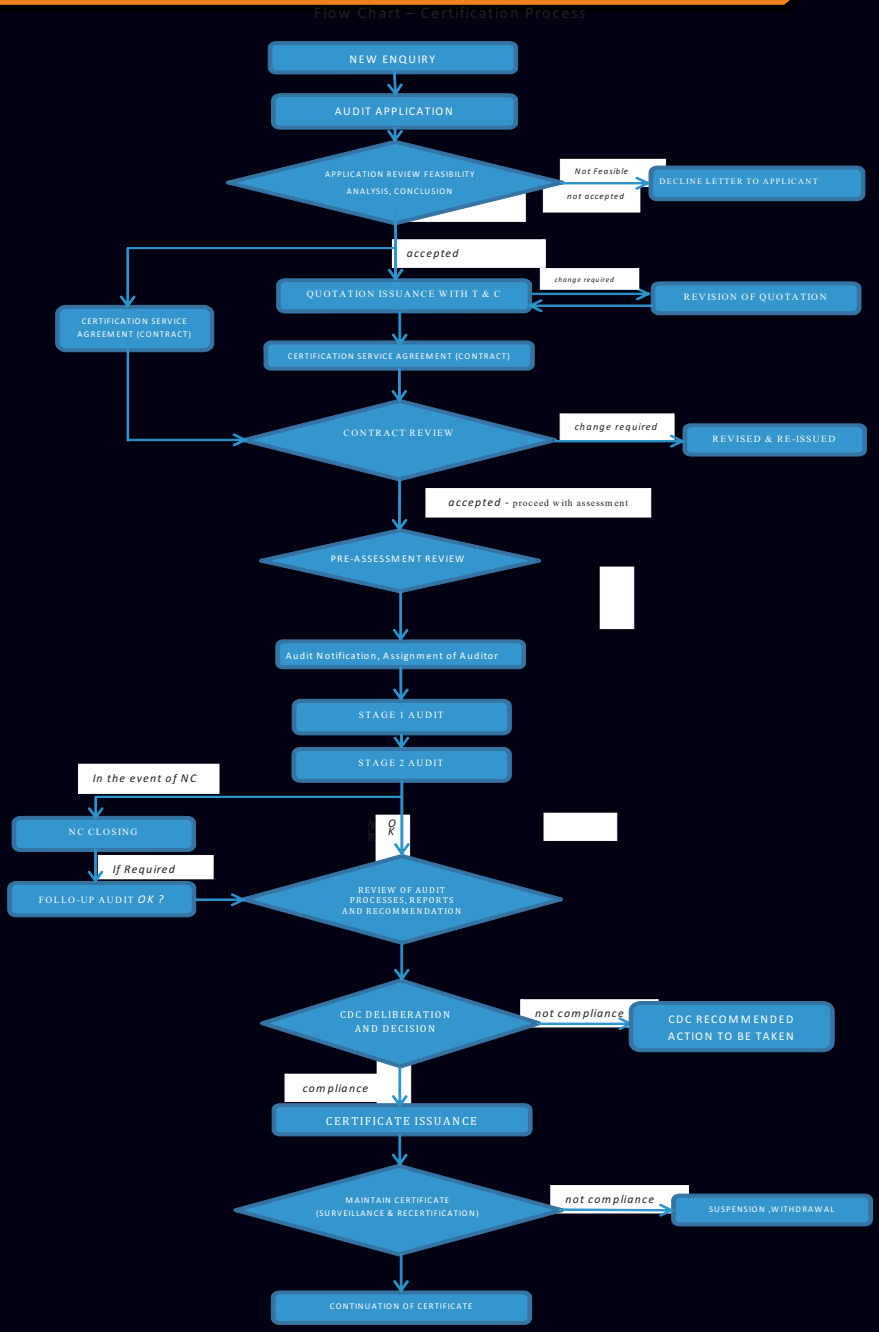

INDEPENDENCY - AITF has not outsource and fully responsible for its decisions relating to granting, maintaining, extending, reducing, suspending and withdrawing of certification.

AITF-MCL activities are not be marketed or offered in any linked with the activities of an organization that provides management system consultancy. The certification body committed to take actions to correct inappropriate claims by any consultancy organisation stating or implying that certification would be simpler, easier, faster or less expensive if taken by AITF-MCL. ALSO AITF-MCL has not recognised to any consultancy organisation or consultant that certification would be simpler, easier, faster or less expensive if a specified consultancy organization were used.

Certification Process

Once application form received either in soft / hard copy via Mail/Currier or by hand to AITF-MCL's registered office address or one of the any Mail ID as specified at AITF website Navigation- contact us. For further process business development team is responsible to replay with review of application for certification.

AUDIT APPLICATION : Required details of Client is gather from the organization with filling of audit application form as specified above with the aim of knowing client requirements for certification, activities carried out by client and number of employees etc.. On the basis of concern information AITF-MCL send economic offer for certification which is mainly based on the required mandays for auditing to the organisation. Also this information is needed for analysing competency requirements to appoint the competentauditor.

QUOTATION ISSUANCE : On the basis of information received in the form of completed questionnaire, the manager reviews the scopes available with AITF-MCL and prepares the quotation with the letter for registration service agreement, which will be sent along with the application for registration. Quotation is prepared and submitted to the client organization for acceptance. The Quotations are prepared on the basis of a uniform policy after deciding the efforts required to audit the Organization.

The quotation indicates the frequency for surveillance visits as well as terms and conditions for grant and maintenance of certification. The quotation is also accompanied by a copy of our certification criteria.

CERTIFICATION SERVICE AGREEMENT : After acceptance of the terms and conditions for the quotation, the client organization is required to submit a copy of the signed agreement along with the application fee. The receipt of agreement enables to register the organization as our client. A unique identification No. is allotted to every organization on receipt of agreement and application fee.Once the Application for registration received & reviewed, which confirms the exact way client company name and site address will appear along with the description of scope (products or services) for which registration is sought. The certification audit contract will be made and sent to the client

CONTRACT REVIEW : After receiving signed service agreement contract then it reviewed. If changed required then revision of contract carried out and if accepted proceed with assessment then pre-assessment review are conducted.

PRE ASSESSMENT REVIEW:

AITF– MCL carryout pre assessment review for analysing and planning of AITF-MCL with respect of following factors:

a. Auditee organization details like Scope, Name, Address, to clear understanding between client & AITF-MCL Requirements, Audit language requirement etc…
b. Details of client Management system if previously certified.
c. Analyses AITF-MCL capability to provide certification service
d. Implementation status of the Applicant
e. Tentative Assessment Plan

AUDIT NOTIFICATION WITH ASSIGNMENT OF AUDITOR:

AITF –MCL Send to Client the audit notification for potential audit planning with assignment of auditor.

STAGE I AUDIT:

a. The purpose of Stage 1 audit is to determine organization's degree of readiness for the Stage 2 audit
b. Stage 1 audit includes a Review of client's documentation
The objectives are to review the quality system documentation:

- Quality Manual
- Procedures
- Work Instructions

The review involves checking that all the documentation required by the standard is available, that all information is consistent, in a controlled state, and distributed for implementation.

c. Stage 1 audit is carried out at least partially onsite to evaluate if the internal audits and management review are being planned and performed, and that the level of implementation of the quality management system substantiates that the client is ready for the stage 2 audit.
d. Stage-1 Audit Report
After the stage one audit the auditor shall submit his finding & advise by written report

STAGE II AUDIT :

- Stage 2 audit is conducted onsite to evaluate implementation, including effectiveness, of the client's management system.
The Audit findings are categorized into following grades:

- Minor Non Conformances
- Major Non Conformances

Any isolated case of deficiency in the system which does not affect the product conformity or customer satisfaction is graded as Minor Non Compliance. Any nonconformance which indicates a total lapse of applicable requirement of the standard and is considered critical to the operation of the management system is graded as major nonconformance. Stage 2 audits is an assessment audit, which is carried out after stage1 audit's inadequacies have been removed and the organization is all set to demonstrate the compliance to the selected international standard. Auditors will plan and conduct the assessment audit.

Type of Non-conformance

Product, Process and system not meeting the planned arrangements are considered as non-conformances. Non-conformances are classified as major or minor based on the following criteria.

a. Major Non-conformance (M)

- Implementation not effective
- Non meeting statutory / regulatory requirements
- Not taking corrective actions for the previous NCRs
- Repetitive minor non-conformances of similar nature across the organization/ across the sites sampled.
- Number of defective samples is more than 50% of total samples size.

b. Minor Non-conformance (m)

- Evidence of implementation observed except isolated cases.
- Defective samples less than 50% of total sample size considered for audit.

Follow-up audit (if required : (Follow up audit is recommended when it is considered on site verification is required to verify the corrective actions for the non-conformances recorded during any base audit)Purpose to verify the following:

- Effectiveness of the Corrective action taken for the non-conformances identified during the base assessment.
- Revision to the system documents if any

Maintenance of certification

The certification is maintained for a period of 3 years under **the following conditions:**

- Surveillance audits are conducted as scheduled to ensure continuance of certification and to maintain validity of certificate.
- The quality system is maintained by the certified client and all the certified non- conformances raised during surveillance are closed to the satisfaction of AITF-MCL assessors within the time frame agreed.
- The internal audit and the management reviews are conducted as scheduled and there are no issues pending.
- The client shall maintain suitable records of customer complaints and keep the records of investigation and remedial actions taken with respect to such complaints for verification by the AITF-MCL assessors.
- All outstanding dues to AITF-MCL are paid.

Criteria for Suspension, Withdrawal, Cancellation -

Suspension

The certificate may be suspended for the following reasons:

- Requested corrective actions are not performed within agreed time limits;
- Improper use of the certificate of conformity or accreditation mark, e.g. misleading publication or advertisement;
- The holder of the certificate neglects to inform AITF about matters of vital importance for the certified management system.
- Failure to settle the outstanding dues due to AITF.

An official suspension of the certificate will be confirmed in writing to the certificate holder. AITF shall indicate under what conditions the suspension will be removed, e.g. corrective actions to be taken. The accreditation authority will be informed. At the end of the suspension period, AITF will determine if the indicated conditions for re -issuing certificate have been fulfilled. On fulfillment, the suspension shall be removed by notifying the certificate holder that the certificate has been reinstated.

Withdrawal

The certificate may be withdrawn in the following cases:

- If periodical audits reveal nonconformities of serious nature;
- If the certificate holder fails to comply with the due settlement of his financial obligation;
- If inadequate measures are taken by the certificate holder in case of suspension.

Cancellation

The certificate will be cancelled if the certificate holder does not wish to prolong the agreement.

AITF will withdraw/ cancel the certificate by informing the certificate holder in writing.

Reducing scope of certification

If client requested to do so or if during assessment it found that client don't having the imparted same (scope) activity in existence in such an event scope will be reduced at any type of assessment.

Above established Criteria for Suspension, withdrawal, cancellation and reducing scope of certification shall be followed.

The Certificate will be withdrawn in its entirety if client or in multisite case the central office or any of the sites does not fulfil the necessary provision for the maintenance of the certification.
